

I would like to comment on the Petition for a declaratory ruling re. Wisconsin “no solicitation call list.” I am opposed to ANY change or easing of the Wisconsin statutes regarding telephone solicitation calls. There IS NO CONFUSION. Interstate advertisers and solicitors must familiarize themselves with State laws even as they do for ALL interstate commerce, taxes and etc. If I am required to fill out forms to offer my opinion please reply. I am watching this with interest and will be sure to let everyone know who supported dinnertime and evening unwanted interruptions. These people have no business using my paid for services to invade my privacy.
